

June 1, 2009 AmeriChoice of New Jersey Preferred Drug List/Medicaid

Physicians and Pharmacists: Please refer to this list when prescribing/dispensing medications for AmeriChoice of New Jersey members.

All strengths and formulations of the medications listed within this document are considered formulary unless specifically noted. Due to the constantly changing nature of drug therapy, the Formulary is a dynamic document and is subject to change without notice. The most commonly prescribed OTC (over-the-counter) products are listed. A valid prescription is required for reimbursement. As defined by the prescription benefits, some medications listed may not be covered for specific members.

The brand-name is included for reference purpose; all medications listed in bold print are generically available. The cost index is based on the average cost per prescription or per 30 days supply and is denoted by one or more dollar signs:

\$ = \$0 - \$25
 \$\$ = \$26 - \$75
 \$\$\$ = \$76 - \$150
 \$\$\$\$ = \$151 - \$300
 >\$\$\$\$ = > \$300

Caveat Legend

- ☐ = Use with caution in the elderly
- ☐ = Use with caution in the elderly and in patients with renal impairment
- ☐ = Should only be dispensed as the recommended brand-name medication
- ☐ = Age restrictions apply
- OTC = Over-the-counter
- PA = Prior authorization may be required
- QL = Quantity limits apply
- ST = Step Therapy
