### **IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY**

*You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Community & State reimbursement policies may use Current Procedural Terminology (CPT®\*), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement.*

*This reimbursement policy applies to all health care services billed on CMS 1500 forms and, when specified, to those billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.*

*This information is intended to serve only as a general reference resource regarding UnitedHealthcare Community & State's reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Community & State may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Community & State enrollees. Other factors affecting reimbursement may supplement, modify or, in some cases, supersede this policy. These factors may include, but are not limited to: legislative mandates, the physician or other provider contracts, and/or the enrollee's benefit coverage documents. Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Community & State due to programming or other constraints; however, UnitedHealthcare Community & State strives to minimize these variations.*

*UnitedHealthcare Community & State may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication.*

*UnitedHealthcare Community & State uses a customized version of the Ingenix Claims Editing System known as iCES Clearinghouse (v 2.5.1) to process claims in accordance with UnitedHealthcare Community & State reimbursement policies.*

## Application

This reimbursement policy applies to services reported using the 1500 Health Insurance Claim Form (a/k/a CMS-1500) or its electronic equivalent or its successor form. This policy applies to all products, all network and non-network physicians and other health care professionals. This includes non-network authorized and percent of charge contract physicians and other health care professionals.

## Policy

### Overview

This policy identifies circumstances in which UnitedHealthcare Community & State will reimburse physicians or other health care professionals for viral hepatitis serology testing.

## Reimbursement

UnitedHealthcare Community & State reimburses for viral hepatitis serology testing (Current Procedural Terminology (CPT ®) codes 86704, 86705, 86706, 86707, 86708, 86709, 86803, 86804, 87340, 87341, 87350, 87380) when one of the diagnosis codes listed on a claim indicates the presence of liver disease, liver abnormalities, or testing for these indications during pregnancy or infertility treatment. UnitedHealthcare Community & State will not reimburse when the test is rendered without inclusion of one of the ICD-9 diagnostic codes being included on the claim accurately reflecting the member's condition.

The attached procedure to diagnosis list was first derived by identifying areas of convergence across Center for Medicare and Medicaid Services (CMS) Local Coverage Determinations (LCD).

## Questions and Answers

**Q:** How was this reimbursement methodology derived?

**A:** The coding edits are based upon review of the Center for Medicare and Medicaid Service's local coverage determinations.

**Q:** To determine reimbursement for reported CPT or HCPCS procedure codes, should ICD-9 diagnosis codes be reported at the claim level or claim line level?

**A:** Report ICD-9 diagnosis codes at the claim line level of the CPT or HCPCS procedure code to be considered for reimbursement.
